Dr. Donald M. Kerr  
Director  
Los Alamos National Laboratory  
Los Alamos, New Mexico 87545

Don:

Sorry I can't avail myself of the briefing you offered. I have several trips planned and now an unexpected overseas sojourn will keep me pretty much tied up until the middle of May.

What I would like to do is ring your bell after I get back in Washington and maybe do it the latter part of May, first part of June, if that is still convenient.

Regards,

John N. McMahon
